Skills Summary

- **Languages**: C++, Python, SQL, HTML, CSS, JavaScript
- **Libraries/Frameworks**: NumPy, Matplotlib, Pandas, React.js, Node.js, REST APIs
- **Databases**: MongoDB, MySQL
- **Tools/Platforms**: Git, GitHub, Linux, Docker, Kubernetes, CI/CD, Jenkins, MS Excel, Tableau, Power BI, GitHub Actions
- **Soft Skills**: Communication, Focus, Resilience, Integrity

Projects

Real Estate Platform | MERN stack, TailwindCSS, Redux Toolkit, JWT — Jul 2025 – Aug 2025

- Deployed a real estate platform with MongoDB, Express, React, Node.js, and Tailwind CSS, reducing property search time by 30% and improving user satisfaction
- Implemented property listings with full CRUD operations, supporting 15+ active property entries for streamlined content management
- Integrated Redux Toolkit for predictable state management and React Router DOM for efficient multi-page navigation
- Enhanced interface performance with TailwindCSS, increasing Lighthouse score by 25% across mobile and desktop devices
- **GitHub**: github.com/abhi-2029/mern-estate

Learning Management System (LMS) | MERN stack, TailwindCSS, (Clerk, Stripe) — Apr 2025 – May 2025

- Built an LMS with secure authentication and role-based dashboards for students and instructors, accessible across all screen sizes
- Enabled key learning features including course creation, enrollment, progress tracking, and interactive lessons, supporting 20+ concurrent learners
- Improved backend scalability by configuring MongoDB and Express APIs, reducing API response latency by 25%
- Delivered a clean, React-based interface with TailwindCSS, improving learner engagement and accessibility across devices
- **GitHub**: github.com/abhi-2029/lms-full-stack

React E-Commerce Website | HTML, CSS, JavaScript, React — Nov 2024 – Dec 2024

- Engineered a responsive e-commerce platform improving mobile accessibility and enabling real-time cart updates for 100+ products
- Resolved React 18 and Material UI 4 compatibility issues, ensuring 100% stable deployment across browsers
- Refactored the codebase into reusable components, cutting redundancy by 30% and speeding up feature delivery
- Improved checkout reliability through robust form validation and efficient state management, reducing errors by 40%

Training

Board Infinity – Online Career-tech platform — Jun 2024 – Jul 2024

Summer Training:

- Completed **60+ hours** of advanced **DSA** training on **C++**, mastering **100+** problems with **OOP** design patterns
- Developed a modular **Library Management System** managing **200+** books and transactions
- Improved data retrieval by **40%** using hash map-based storage for users and books
- Built persistent file storage with robust I/O for seamless record management.

Achievements

LeetCode 300+ — Jun 2025

- Solved **300+** LeetCode problems with a **200+** active days, strengthening **DSA** skills, demonstrating strong consistency, algorithmic thinking, and coding efficiency.

HackerRank — Nov 2024

- Earned **5-star** ratings in **C++** and **Python**, and **5-star** in **SQL**, on **HackerRank**, showcasing proficiency in programming languages and database querying

Certificates

- Data Structures and Algorithms | | Udemy — Feb 2024
- Programming in C++ | | Coursera — Feb 2024
- Mastering Data Structures and Algorithms | | Board Infinity — Jul 2024

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***(CGPA: 7.1)*** — *Aug 2022 – Present*
- **ShantiNiketan Jubilee School** — Bihar, India
  Intermediate; ***Percentage:*** *65.6%* — *Apr 2020 – Mar 2021*
- **CS DAV Public School** — Bihar, India
  Matriculation; ***Percentage:*** *62.5%* — *Apr 2019 – Mar 2020*
